

The Missouri Department of Agriculture

# 2012 Missouri Livestock Market Directory

Missouri's livestock industry is a national leader and has a strong legacy with its focus on innovation, genetics, health and nutrition. While the future of Missouri's livestock industry depends upon the state's producers, Missouri producers know that thriving markets are key to their continued success.

Missouri is home to many licensed, professional livestock markets, as well as dedicated marketing personnel, to help producers throughout the state receive maximum return on their investments in raising high quality livestock.

Thank you for supporting Missouri agriculture.

All livestock offered for sale through licensed Missouri livestock markets are inspected by veterinarians prior to sale. For information on health requirements for moving livestock into and within Missouri, please contact:

The Missouri Department of Agriculture's Market News Program strives to give Missouri's livestock industry the most accurate and timely market information possible. In an effort to help keep the Missouri public fully informed of current market information, the Market News Program uses several means of reporting, including radio broadcasts, newspapers, the market news hotline and a website.

Every Friday, the Weekly Market Summary brings together information from markets in Missouri and throughout the Midwest, including livestock, grain futures, livestock slaughter figures, Missouri direct feeder pigs and Missouri cash grain prices. The Weekly Market Summary is posted online at [mda.mo.gov](http://mda.mo.gov)

If you would like to receive a printed copy of the Weekly Market Summary by mail, the annual subscription fee is \$25.
